# SDG&E HAS DEVELOPED THE MOST COMPREHENSIVE & ROBUST WILDFIRE SAFETY & MITIGATION PROGRAM IN THE U.S.

## 2020: Largest Wildfire Season in California's History

**9,000+**  
wildfires

**4 Million**  
acres burned  
~4% of CA's land

**Threatening lives,  
property and  
infrastructure**

## Commitment to Wildfire Mitigation

Winner of the 2018 Edison Award from the Edison Electric Institute (EEI) for enhancing wildfire preparedness and grid resiliency

Founding member of the U.S. Department of Energy's Partnership for Energy Sector Climate Resilience

Prevention program is the model for others

## Protecting All the Cities We Serve

- First California utility to map high-risk fire areas
- Invested more than \$2 billion in a variety of safety measures to prevent catastrophic wildfires
- Established partnerships with climate science experts to develop the best climate science in the U.S.
- Installed state-of-the-art network of cameras that provides real-time information
- Developed and built the nation's largest utility-owned weather network, with over 200 stations
- Maintains 24/7 all-hazard, all-risk watch desk program
- Engages in fire modeling to predict fire danger and the progress of fires
- Staffs our own industrial fire brigade 24/7

## Boots on the Ground Have 24/7 Technical and Scientific Support

- Offers natural gas and electric response safety training
- Supports crews and equipment, and communications updates
- Provides communications through state-of-the-art Emergency Operation Center
- Reduces Potential Ignitions and Keeps Our Communities Safe

## Spearheads Public Education and Communications Efforts

- Conducts wildfire safety and emergency-preparedness fairs and events
- Communicates with customers through in-language phone calls, text, and emails, including English and Spanish TV and radio media and outreach to High Fire Threat District communities and hard-to-reach customers
- Coordinates real-time updates through its social media platforms, website, and partnered digital platforms
- Community Resources Centers supply water, snacks, wi-fi, portable chargers, and real-time information during Public Safety Power Shutoffs

The safety of our customers, employees and the communities we serve is SDG&E's highest priority

Support SDG&E's Effort to Continue to Deliver the Safe, Clean and Reliable Energy San Diegans Depend on
